Letter of Transmittal

December 17, 2014

Dear Board Members:

It is with pleasure that we present the Comprehensive Annual Financial Report (CAFR) of the Indiana Public Retirement System (INPRS) for the fiscal year ended June 30, 2014.

About the System

As of June 30, 2014, INPRS was responsible for the investment of approximately \$30.2 billion in net assets. For the year, INPRS paid approximately \$2.2 billion in monthly retirement, disability and survivor benefits to 133,128 benefit recipients. INPRS received contributions of approximately \$2.1 billion from 222,497 members actively employed in public service and 1,174 participating employers statewide, and the State of Indiana (as an employer or nonemployer contributing entity). INPRS also maintains accounts for 94,559 inactive members for a total membership of 450,184. Details about INPRS members and employers can be found in the Statistical Section of this report.

This report provides detailed information on the performance of nine (9) retirement plans administered by INPRS, including:

- Public Employees' Retirement Fund (PERF)
- Teachers' Retirement Fund Pre-1996 Account (TRF Pre-1996)
- Teachers' Retirement Fund 1996 Account (TRF 1996)
- 1977 Police Officers' and Firefighters' Pension and Disability Fund (1977 Fund)
- Judges' Retirement System (JRS)
- State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan (EG&C Plan)
- Prosecuting Attorneys' Retirement Fund (PARF)
- Legislators' Defined Benefit Plan (LEDB Plan)
- Legislators' Defined Contribution Plan (LEDC Plan)

INPRS also administers two (2) Other Postemployment Benefit Funds. Both are special death benefit funds for public safety officers and state employees who die in the line of duty. In addition, INPRS manages an Agency Fund. The agency fund is the Pension Relief Fund, which was created by the Indiana General Assembly to address the unfunded pension obligations of the police officers' and firefighters' pension systems of Indiana's cities and towns. INPRS is not responsible for the administration of those local pension funds, which have been closed to new membership since the creation of the 1977 Police Officers' and Firefighters' Pension and Disability Fund. However, INPRS makes disbursements from funds provided by the General Assembly to the local police and firefighter units throughout the state that are still obliged to pay benefits under those former plans.

Letter of Transmittal, continued

Since their establishment, the laws governing the administration of INPRS-administered funds have changed and expanded in response to the needs of our members, employers, and citizens.

In 1955, the Annuity Savings Account (ASA) was established as a supplemental benefit to the then existing defined benefit for PERF and TRF members, making these plans amongst the first in the nation to adopt a hybrid plan design. With employers paying the necessary contribution to fund the defined benefit, employees have since been required to make a contribution into a member managed account. Members are immediately vested in their ASAs. Upon retirement, PERF and TRF members can withdraw their ASA balance in a lump sum or they can convert their balance into an annuitized amount that is added to their defined benefit. Non-vested inactive members (i.e., members who have not met the requirements for a defined pension benefit) may elect to withdraw their ASA balances upon termination of employment.

The 1995 legislative session brought several significant changes to TRF. Legislation was passed that closed the pay-as-you-go plan (the Pre-1996 Account) to newly hired members and created a new account named the 1996 Account. All teachers hired after June 30, 1995, would be members of the 1996 Account. The 1996 Account was established to be actuarially pre-funded by requiring school corporations to set aside a fixed percentage of payrolls for teacher retirement benefits. Also, in 1995, the General Assembly passed legislation creating the Pension Stabilization Fund (PSF), designed to partially fund TRF's unfunded liability of the Pre-1996 Account. The PSF was initially funded from \$425 million of employer reserves from the Pre-1996 Account and, since that time, has received contributions from the Indiana State General Fund, contributions from the Indiana State Lottery, and interest earned from the investment of PSF assets. As of June 30, 2014, the PSF had a balance of \$2.9 billion.

A public referendum held in 1996 approved an amendment to the Indiana Constitution to allow the funds to invest in equities. Since that time, INPRS has been able to diversify its investment asset classes and grow its asset base.

In 2000, legislation established that the fund's administrative bodies would no longer be state agencies but each would be an "independent body corporate and politic." This means INPRS is not a department or agency of the State, but is an independent instrument exercising essential government functions. Under Indiana law, INPRS is under the jurisdiction of the State Ethics Commission.

Effective July 1, 2011, the administration of the Indiana State Teachers' Retirement Fund (TRF), established in 1921, and the funds previously administered by the Indiana Public Employees' Retirement Fund (PERF), established in 1945, were consolidated as the Indiana Public Retirement System (INPRS).

Benefit Plan and Other Legislative Changes during Fiscal Year 2014

Several changes passed in fiscal year 2013 and took effect during fiscal year 2014:

- Legislation provided a one-time check (a.k.a. 13th check) to benefit recipients of PERF, TRF and the EG&C Plan in various amounts based on years of service. In addition, benefit recipients of the 1977 Fund and Judges' Retirement System received a cost of living (COLA) increase.
- Legislation provided that for a member of PERF who dies after June 30, 2013, the beneficiary on file at the time of the member's death is the beneficiary PERF will pay out.
- Legislation required that an order for restitution be issued by the sentencing court before money may be taken from a PERF or TRF member's account to compensate an employer for a criminal taking by the member.
- Legislation increased the state employee line of duty death benefit from \$50,000 to \$100,000 and under certain

Letter of Transmittal, continued

conditions entitles stepchildren to receive survivor death benefits.

- Legislation clarified eligibility for the PERF ASA-Only Plan. This legislation provides that any government agency that pays employees through the Auditor of State is a mandatory employer participant. Quasi-governmental and state educational employers may choose to offer the ASA-Only Plan as an option for their qualified employees.
- Legislation provided that a PARF member who took a withdrawal upon separation from service and who returns to service may buy back service credit at the full amount, plus interest at a rate specified by the INPRS Board.
- Legislation provided that on or after July 1, 2013, full time employees of the Lottery Commission shall become members of PERF.
- Legislation eliminated PERF second retirements. This legislation provided that any retired PERF member reemployed in a PERF covered position July 1, 2013 and after shall not accrue a supplemental retirement benefit.
- Legislation provided several changes to the PARF plan including but not limited to 1) capped member contributions at 22 years of service, 2) provided immediate eligibility for disability benefits upon hire, 3) allowed members to receive full retirement benefits at age 65 or anytime after 55, if they meet the rule of 85, 4) increased the minimum survivor benefit from \$7,000 to \$12,000, and 5) clarified eligibility of certain survivor benefits to a surviving spouse and children.
- Legislation permitted certain 1977 Fund members who become employed by another participating employer to remain as a member of the 1977 Fund without undergoing another physical and mental examination for fund eligibility purposes.

Major changes passed in fiscal year 2014 that become effective in fiscal year 2015:

- Legislation provided a one-time check (a.k.a. 13th check) to benefit recipients of PERF, TRF and the EG&C Plan in various amounts based on years of service. In addition, benefit recipients of the 1977 Fund received a COLA increase.
- Legislation provided that INPRS keeps the annuity program in-house until January 1, 2017. Legislation also provided that between October 1, 2014 and September 30, 2015, the Board shall provide annuities to retiring and retired PERF and TRF members at a 5.75 percent interest rate. Between October 1, 2015 and December 31, 2016, the interest rate will be the greater of the market rate or 4.5 percent. After December 31, 2016, whenever the Board enters into an agreement with a third party provider, the interest rate will be the market rate.

Management's Responsibility for Financial Reporting

INPRS management has the fiduciary responsibility to safeguard the system and is responsible for the contents of this report. INPRS management is also responsible for establishing and maintaining a system of adequate internal accounting controls designed to provide reasonable assurance that transactions are executed in accordance with management's general or specific authorization. INPRS management is responsible for ensuring that an adequate internal control structure is in place to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized user disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the benefits likely to be derived and that the evaluation of costs and benefits requires management to make estimates and judgments. The internal control structure is subject to periodic evaluation by management and the internal audit staff to ensure compliance with applicable laws and regulations.

For financial reporting purposes, INPRS adopted GASB 67, "Financial Reporting for Pension Plans" on June 30, 2014. This replaces the requirements of Statements No. 25 and No. 50 as they relate to pension plans that are administered through trusts. Assets of INPRS are presented at fair value. The actuarial value of assets and the actuarial accrued liability are presented in the Actuarial Section of the CAFR.

Letter of Transmittal, continued

GASB issued Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments." This Statement establishes financial reporting standards for state and local governments. The Management's Discussion and Analysis is contained within the Financial Section of this report and serves to supplement the Introductory Section of this CAFR, as well as financial statements, notes, and supplementary information within the Financial Section.

GASB issued Statement No. 68, "Accounting and Financial Reporting for Pensions" which will improve accounting and financial reporting by state and local governments for pensions. This Statement is an amendment to the requirements of Statement No. 27, "Accounting for Pensions by State and Local Governmental Employers," as well as the requirements of Statement No. 50, "Pension Disclosures," as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. The provisions of GASB Statement No. 68 are effective for fiscal year 2015 for state and local governments.

Economic Condition

The economic condition of INPRS is based primarily upon investment results and contributions from members, employers and a nonemployer contributing entity. Strategic Investment Solutions, Inc. (SIS), the primary investment management consultant for INPRS, and the INPRS Chief Investment Officer (CIO) evaluated the impact of economic conditions on the investments of INPRS. The SIS Report on Investment Activities and the CIO Report are located in the Investment Section of this report. In aggregate, fiscal year 2014 contributions from members, employers, and nonemployer contributing entities to all of the INPRS administered plans were 99.4 percent of the Actuarial Determined Contribution.

Investments

In fiscal year 2014, INPRS Consolidated Defined Benefit Assets time-weighted rate of return is a positive 13.7 percent net of fees. All asset classes contributed positive rates of return. Both the five-year return rate of 10.5 percent and the three-year return of 8.4 percent are above the long-term actuarial assumed rate of 6.75 percent. The 10-year rate of return of 5.68 percent is below the long term actuarial assumed rate of 6.75 percent. INPRS implemented a risk based asset allocation beginning in 2011. Since that time, the portfolio has performed as expected given U.S. and global market conditions. As with any long-term forward looking asset allocation, the true test will be time as the portfolio weathers changing environments.

The foundation of any successful investment program is the commitment to and execution of disciplined decision-making policies and processes conducted by competent investment professionals. The INPRS Investment Policy Statement is an essential element of our commitment to investments excellence. Detailed investment policies and results can be found in the Investment Section of this report.

Funding

An actuarial analysis of all INPRS-administered retirement plans is performed on an annual basis. An assumption experience study is performed every three to five years. PricewaterhouseCoopers (PwC) completed the most recent assumption experience study for all DB retirement plans except TRF as of June 30, 2010 and Nyhart completed the most recent assumption experience study for TRF as of June 30, 2011.

One purpose of the annual actuarial analysis is to measure the funding status, typically referred to as the funded percentage. The percentage is computed by dividing the actuarial value of net assets by the actuarial accrued liability. This

Letter of Transmittal, continued

ratio provides an indication of the funding status of the plan, and generally, the greater this percentage, the stronger the plan.

As discussed earlier in this letter, INPRS administers eight (8) separate DB retirement plans. The aggregate funded status percentage for all the pre-funded plans improved in FY2014 to 87.9 percent. The TRF Pre-1996 pay-as-you-go account, designed in 1921 for a zero funded status, actually has a funded status of 32.8 percent thanks to the underpinning of the Pension Stabilization Fund and member ASA account balances. Actuarial standards consider a funded percentage of 80 percent or better as being healthy. We are pleased with our overall funded status and continue to work to achieve 100 percent funding.

Details of the actuarial analysis can be found in the Actuarial Section of this report and the supporting statistics can be found in the Statistical Section. In the Statement of Changes in Fiduciary Net Position, contained in the Financial Section of this report, the accumulated balance of funds derived from the excess of additions over deductions is referred to as the net position restricted for pension benefits. The actuarial accrued liability is not disclosed in the Financial Statements, but is disclosed in the Summary of INPRS Funded Status in the Actuarial Section.

Accomplishments in 2014

INPRS continues to fulfill its mission while demonstrating commitment to its values. The INPRS strategic plan provides the foundation from which INPRS moves towards its vision to be the premier public retirement system, respected by customers, peers and community, and known for professional service and fund stability. A copy of the INPRS strategic plan can be found on the INPRS website www.inprs.in.gov. To that end, there were several significant accomplishments during fiscal year 2014.

Members continued to receive outstanding customer service. More than 99 percent of new retirees received their first pension payment on time. More than 90 percent of members, who interacted with INPRS, rated their experience as good or excellent. Restructured member counseling services are providing 20 percent more counseling capacity at no increase in administrative cost.

Fiscal year 2014 marked the completion of a multi-year IT system and business process modernization program. The last major component of the INPRS modernization program was the implementation of a new Defined Benefit administration system. This new system was operational in early calendar year 2014. With modern systems and processes in place, INPRS is well positioned to deliver better and more consistent outcomes to members in the coming years. To that end, INPRS has launched a Quality Management System (QMS) program that will equip employees with the tools and skills needed to derive more value from our newer systems and processes.

As stewards of assets held for current and future retirees, INPRS continues to find ways to deliver better services for fewer dollars. Savings resulting from the merger of PERF and TRF continue to increase. With \$17+ million of additional savings achieved in 2014, the cumulative net present value of savings generated thus far is \$347 million to Indiana taxpayers.
